Nutrition – Section Summary

Energy needs • Timing • Protein • Pancreatitis • Tolerance

Critical Care Board Review • Section 33 • MCQ-Oriented

1. Key Points

- Energy ≈ **25–30 kcal/kg** (80 kg → ~2400 kcal)
- Start EN **within 24–48 h**
- Severe pancreatitis → ICU + **enteral feeding**
- AKI on HD: don't restrict protein; dialysis enables nutrition
- Glycogen storage disease → liver US
- Stable residuals/tolerance → **continue** feeds

2. High-Yield MCQ Pearls

- [x] Early EN
- [x] Don't restrict protein in AKI
